📍 Tel Aviv, IL

SKILLS

- React.ts, React hooks
- React Redux, RTK
- TypeScript
- Go
- Design Libraries
- JS, HTML5
- CSS (inc. MUI, Tailwind, AntD)
- Chrome Devtools
- Figma
- Node.js, Python, Java
- SQL, MongoDB
- Angular 7
- OOP
- Spring Framework
- Spring MVC
- Git, Github, Gitlab, Bitbucket

LANGUAGES

- Hebrew (Native)
- English (Fluent)
- French (Good)

PROFILE

Front-end/Full-stack developer who lifts speed, quality, and reliability from day one.

WORK EXPERIENCE

DRAGONTAIL SYSTEMS

2024-2025

FULL- STACK DEVELOPER (REACT, GO)

- Led end-to-end delivery for a **real-time Kitchen Display System (KDS)**, focused on **high availability**, **low-latency** order orchestration, and **scalable** frontend/backend workflows.
- Designed frontend architecture with **React**, **TypeScript**, and **Redux Toolkit / RTK Query**: predictable **state management**, resilient **error/loading** patterns and **responsive** UI.
- **Owned Go middleware and supported a legacy backend**, bridging client server flows; implemented **requests routing/handlers** and **payload normalization**, applied **safe timeout/context cancellation**, and closed ticket end-to- end with **regression-safe** releases.
- Drove **performance optimization**: efficient **client-side caching & polling**, reduced **render cost**, and improved **time-to-interactive** on live dashboards.

IVORY SOFTWARE SYSTEMS LTD.

2021-2024

FRONTEND REACT DEVELOPER

- **Led the full-cycle development** of an application to manage financial accounts for a major insurance company, **from conception to deployment**.
- **Designed** the infrastructure and integrated **RESTful APIs** from scratch, implementing a robust **global state management solution** to ensure seamless data flow and consistency across the entire application.
- Developed **core reusable components** used across multiple parts of the system and took charge of building **main modules** critical to the application's functionality.
- Pioneered the **Pixel-Perfect concept** in collaboration with the design team, translating detailed Figma designs into flawless, production-ready code.

EDUCATION

Jhon Bryce Academy

2020

Majored in Full Stack Java (graduated with honors)

GPA: 98 / 100
